

## Corrigendum: covering entropy for types in tracial $W^*$ -algebras

DAVID JEKEL

There is an error in the statement of Corollary 1.3 in the paper:

[Covering entropy for types in tracial  \$W^\*\$ -algebras](#), J. Logic & Analysis 13 (2021) 1–71

The correct statement should be:

**Corollary 1.3** *Let  $\mathcal{M}$  be a separable  $II_1$  factor (tracial  $W^*$ -algebra with trivial center) with  $h(\mathcal{M}) > 0$ . Then there exists a free ultrafilter  $\mathcal{V}$  and an embedding  $\iota : \mathcal{M} \rightarrow \prod_{n \rightarrow \mathcal{V}} M_n(\mathbb{C})$  such that  $\mathcal{M}' \cap \prod_{n \rightarrow \mathcal{V}} M_n(\mathbb{C}) = \mathbb{C}$ .*

The proof remains the same.
